

Placing a Referral Order for Telehealth

This tipsheet details the instructions for placing a referral for Telehealth services. ORTHO TRAUMA

Try It Out

1. Start by opening the preference list then selecting referrals and selecting the desired specialty.

ORTHO TRAUMA

The screenshot shows the 'Order Search' interface with a search bar at the top right. On the left is a navigation menu with categories like 'NMMCI Quick Pick', 'Labs', 'Imaging', 'Procedures', 'Immunizations', 'Referrals', 'Medications', 'Cardiology', 'Mobile', and 'In-Clinic Medications'. The 'Referrals' category is expanded, showing a list of specialties. 'Orthotrauma' is selected and highlighted in green. At the bottom of the interface, there is a search bar for new orders, a yellow sticky note icon (pointed to by a red arrow), and a '+ ADD DX (0)' button.

2. When prompted, select that the referral is a “Telehealth” referral on the order composer Screen.

Ambulatory referral to Orthopedic Surgery

Class: **Internal**

Referral: Override restrictions

To dept: **NMTUPMC ORTHO TRAUMA**

To dept spec: **Orthopaedic Surgery**
